Ref Commissioners Proceedings R No. 1125-Ab
dated 4.6.27 and West Coast A. C.
order. No ~~—~~ 25.4.28

Sir.

I submit herewith a statement showing the detection made by me for the quarter ending 31 3/28. The Special duty Assistant Inspector was instituted in Bangalore Circle only with effect from ~~—~~ 1 3/28 with a view to detect and put down cashew nut distillation the Circle. The season proper commenced from 15 3/28 the cashew crop this year being comparatively poorer due to clouds and intermittent rain It is however observed that all dealing classes resort to illicit distillation in this circle and detection of this class of crime is growing more difficult every day as everything contraband is concealed in bushes or buried under earth in hillocks neighbouring dwelling houses and nothing illicit is kept within houses.

In the month under review I had an orderly of 4 persons who joined me between 5 3/28 & 8 3/28 and raids were conducted

in suspected localities and in places where there was information of crime. 5 cases under Head IV under Head X and 1 under Head XII were detected and dealt with in the month. All the cases charged were convicted by the Magistracy.

As I have been enabled to study the existing local conditions in the month under review. I hope to achieve better results next quarter

Submitted to the Commissioner of, Excise, Madras.

The temporary Assistant Inspector Mr. Lobo has done good work in respect of detection of grave crime during the short period he was in the circle and he deserves special credit in view of the fact that the Cashew season this year was comparatively poor. He has by his detection amply proved the necessity for posting a special Assistant Inspector to the circle every year during the Cashew season from March to May and I request the Commissioner to consider the matter favourably.

11/6/28

C.R.N. 11/6/28. For Assistant Commissioner.

1/2 No. 1/28

Camp. Mangalore 6

28th May 1928

From

A. A. Lobo
Spl. Duty Assistant Inspector
Mangalore Circle.

To

The Secretary to the Commissioner of Excise
Chepauk, Madras.

Ref. Commissioner's Proceedings R No. 1125 A&K
dated 4.6.27

Sir,

I submit herewith a statement showing my distribution for the quarter ending 30 6/28. In the quarter under review the portion of T/Puniangadi Taluq under Mangalore Circle was added to Kasaragod Circle and the Karkal Taluq of the Udipi Circle was added to Mangalore Circle.

The activities of the Special duty staff were confined in the gr 1- to 11 ranges of the Circle where cashew cultivation is more and as will be seen from the accompanying statement. The cashew season was practically over in the Mangalore Taluq by the end of April; but in the Karkal Taluq ripe cashew fruits sought for distillation even on the 21st of May. This indicates that the cashew season commences late and ends late in the Karkal Taluq of the district. The special duty staff was disbanded on 28 5/28 forenoon.

The listing for cashew cultivation appears to be predominant amongst the Roman Catholic Christians of the district. When cashew fruits become ocular ripe sago fruits wash is used with a few cashew fruits added to it to give the flavour of cashew to the distilled stuff.

The successful detection of illicit distillation is getting more difficult every day as everything contraband is concealed either in bushes or buried under earth in the open and care is taken to keep nothing incriminating even in dwelling houses.

21/5/28

400/28

Submitted to A.C. W. Coast Division

The A.S. has detected in the whole 21 I.D. cases of which 16 were detected in the Current Quarter. His work was very good and his raids in I.D. areas have tended to keep the illicit distillers in check.

Cashew season in the Circle was very bad this year; and when I took charge in the middle of April I found almost no Cashew fruits at all in the Manjeshwar portions of Puttur Taluk. Cashew I.D. was therefore not so rampant as it used to be, as is usually the case. The season for Cashew is expected to be good next year and a Special A.S. will be required then. I have myself detected eighteen one months and fifteen days I have been in charge of the Circle and am sure this Special also will find plenty of work to do.

The A.S. has not yet submitted a town map but his towns have been kept satisfactorily. He has been quite active during his term here.

Mr. A.A. Lobo - A.I. - report on special duty in Mangalore

Mr. A.A. Lobo was on special duty in the Mangalore D from 1-3-28 to end of May (28-5-28) in connection with the detection of I.D. Cases in the Cashew season. The A.I.'s report on his work from 1-3-28 to 31-3-28 is at ① & from 1-4-28 to 28-5-28 is at pp 2-3 C/f

The A.C. Commends the work of the A.I. and observes that his detection has proved the necessity for the services of an A.I. in the D from March to May every year. The report may be recorded and the A.I.'s work noted with satisfaction. The A.C. may be asked to raise the question of retention of the temporary staff next year early in Jany. 1929.

As done this year one of the Asst Pancmas for I.D. duty but not employed as the A.I.'s may be sent.
